

Greetings Chuck!

HELLO! Thank you for your letter! As you know, I am Jarit Del. I am 45 years old but I have seven lifetimes of memories, because I am a joined trill, just like Doctor Vier. I am also very excited (and also a little scared) about this mission we will be on together!

You sound like a very unique person, and I'm very much looking forward to meeting you face to face! I hope you won't be too disappointed when I confess to you that I have seen very few Earth movies. On the bright side, I think it could be a lot of fun, once we are both on the Sagan, if you would share some of your favorite movies with me so I can learn about the things you like!

I can see that you love Doctor Vier very much. I am glad to hear about your emotions! It sounds like you are quite experienced with feelings already, but one of the things I can help you with is some fun and safe ways to explore your feelings. There are so many ways to feel! It's very exciting to have the chance to go on this journey together.

I will tell you a secret. Just knowing that you can be brave and scared at the same time means that you have already made a lot of effort to increase your emotional intelligence. It took me many many years to learn what you have already figured out!

I am sure we will both make many mistakes and we will both learn many new things. Will you do me a favor? Please, be sure to tell Velvet all about me so that they aren't scared when we meet in person. Thank you, Chuck. I will see you soon!

Sincerely,  
Jarit Del
